## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-8 and 17-25 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding Claims 1 and 19, the closest prior art **Schultz (US Patent No. 5,640,702)** discloses the claimed inventions of claims 1 and 19 including feed chutes (**16 and 26**) having feed material inlets (**23a and 33a**) into the feed chamber through which a feed material to be treated in the molten reactant metal except for the feed chute having a portion extending into the feed chamber so that the feed material inlet into the feed chamber is positioned within the area defined by the feed chamber and spaced apart from the boundaries of the feed chamber. **Robert et al. (US Patent No. 5,491,279)** reference discloses a similar feed chute as the claimed invention of claims 1 and 19. However, the molten reactor of Schultz cannot be modified with the feed chute design of Robert et al.

Claims 2-8, 17-25 are dependent claims of claims 1 and 19 respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
